Re: Facility #IDD000800961

Dear Mr. Drexler:

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility with the EPA Identification Number shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that Section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

Your Part A permit application lists tank storage of D001 (ignitable) wastes, to cover the storage of waste oil prior to recycling. Pursuant to Section 122.23(c)(1) of the permit standards, new hazardous wastes not previously identified in Part A of the permit application may be treated, stored, or disposed of at a facility if the owner or operator submits a revised Part A permit application prior to any handling of the new waste material. We have information indicating that this facility has received spent solvent. If the solvent is any of those identified as Hazardous Waste Nos. F001 through F005 (list enclosed), this must be included on your permit application and you should submit a revised application immediately.

Please call Linda Dawson at (206) 442-1260 if you have any questions.
